TO: All agencies and providers

FROM: Jack Davidoff MD – REMAC Chair

RE: Protocol Policy Addition

DATE: April 9, 2013

REMAC ADVISORY

Please find attached FLREMS Protocol Policy 4.18. This policy statement relates to the alternative use of Dextrose 10% in place of Dextrose 50% when it is not available.

This change is effective immediately and the related protocol will be changed with the next protocols submission to NYSDOH.
